DOMUS

Toaster and kettle

Image credit to Anna Starmer

WELCOME

At Dualit, we can spend up to three years developing a new product; designing, innovating, testing, and improving. The launch of a new product after all the hard work is always an exciting time and we are extremely proud to introduce Domus, our latest toaster and kettle range. Read all about the patented features and design that makes the range so user friendly on pages 24-27.

Colour is usually one of the most important factors when deciding whether to buy an appliance. We started working with global trend and colour forecaster, Anna Starmer, with the aim of developing a new collection of colour finishes for our iconic Classic Toaster. Over the course of twelve months, we worked closely with Anna to define and refine our ideas and inspirations into the New Neutrals range you see presented to you in this brochure. Have a look at the objects that helped us curate the new colours on pages 16-19.

In addition to our toasters and kettles, you will also find a wide range of coffee machines and coffee makers, appliances to assist with meal prep and our commercial range. Not forgetting our award winning tea and coffee capsules; Nespresso® compatible* and made here in the UK at our capsule plant in West Sussex. Watch our video to take a behind the scenes look at how our capsules are made: www.dualit.com/capsules

Finally, we hope you enjoy browsing our new brochure and finding just the right product for you and your kitchen.

Leslie Gort-Barten

Leslie Gort-Barten

Alex Gort-Barten

Alex Gort-Barten

* Suitable for Nespresso® drop through capsule machines, excluding professional machines and 'built-in' models. Nespresso® trademark is owned by Société des Produits Nestlé S.A.

YEAR IN, YEAR OUT

We've been manufacturing catering equipment in the UK since 1945.
Here's our story...

INVENTION IS IN THE GENES

Founder Max Gort-Barten's first product, a dual-light electric fire, inspired the Dualit name. His flip-sided toaster was patented in 1946.

1940s

COMMERCIAL SUPERSTAR

By the 1960s the company was in new premises on the Old Kent Road, London. The commercial toaster was already well-established in catering circles.

1960s

EXPLOSION IN DEMAND

Enhanced versions of the original toaster had now gone worldwide, and sales quadrupled overnight. Dualit started to broaden its horizons and move into new products.

1980s

NEW PREMISES, NEW PRODUCTS

The company outgrew its home in the Old Kent Road, and moved to West Sussex. The product range extended to blenders and Lite toasters.

2000s

1950s

A CLASSIC IS BORN

In 1952 he designed a new commercial six-slot toaster which bears a significant resemblance to today's Classic Toaster.

1970s

FROM CHEFS TO CONSUMERS

The 70s saw the commercial toaster move into mainstream consumer markets.

1990s

INNOVATION AND AWARDS

In the 90s, product launches and awards came thick and fast, and the new patented ProHeat® element won Dualit a Millenium award.

2010s

THE FUTURE LOOKS BRIGHT

Dualit's reputation amongst professional chefs is as strong today as it's ever been. The company remains dedicated to developing great products for kitchens everywhere.

BRITISH DESIGN & ENGINEERING

The spirit of innovation is the Dualit keystone. Since 1945, we've ceaselessly invented, created and pushed boundaries. We've never stopped listening to our customers and our aim to bring you products that combine reliability, performance and enduring design is unchanged. Every step of our manufacturing process must pass through our stringent quality control measures. Our products are built to last and we take great care to ensure that they do.

“The Classic Toaster has become one of Britain's most recognisable kitchen essentials because through its development we make sure it delivers on the three most important factors for customers; style, technology and practicality.”

*Leslie Gort-Barten
Managing Director*

SMALL DETAILS MAKE A BIG DIFFERENCE

We're proud of our in-house research and development team and extensive engineering expertise. We want to offer our customers something they can't find anywhere else and we spend years refining the details to make your kitchen a happier place to cook. We believe in our designs and have an increasing list of patents to show that our products are truly unrivalled.

PATENTED FEATURES

Constant product innovation is not only the key to Dualit's success but it's what inspires us. A patent protects an invention, preventing anyone else from reproducing, using or selling what we have worked hard to achieve, keeping it uniquely Dualit.

SAFETY FIRST!

As a responsible manufacturer, all Dualit products undergo rigorous testing and approvals. Dualit have, since 2014, patented and put into production on all commercial & domestic toasters a thermal protection device which will cause the toaster to shut off if it detects that it is overheating. We are the only toaster manufacturer to have such a device. All our products come with an instruction manual that should be read before using your product for the first time. As well as important safety advice, you will find useful tips on how to get your best out of your product.

Important! Before using your product for the first time, please make sure you have:

1. Read the instruction manual
2. Register your product at www.dualit.com/register, it takes less than 60 seconds

Here are some of the most important safety instructions:

- Turn off the toaster at the socket and unplug when not in use
- Never leave your toaster unattended during use
- Never use your toaster if you notice that the timer is operating slowly or sticking. Unplug the toaster and contact Dualit immediately to arrange a repair. Do not use the toaster until repaired
- Never position a toaster under a cupboard or near anything flammable
- Never use a sugar coated or jam filled tart in your toaster
- Do not be tempted to insert an object e.g. knife, fork or your fingers, into a toaster - you will be in danger of receiving a severe electric shock!

Great British breakfasts

TOASTER & KETTLE COLLECTION

Introducing the new Domus range of toasters and kettles. Joining our Classic, Architect, Lite and Studio collections, there is a choice of toasters and kettles to suit your needs; from the size of your family to the design of your kitchen. Give yourself a head start in the mornings with breakfast by Dualit.

Classic

TOASTER & KETTLE

The groundbreaking Classic Kettle has a patented replaceable element, Whisper Boil™ and anti-wobble base for a kettle that really lasts. The Classic Toaster is fitted with a patented armour-plated replaceable Proheat® element and is the perfect partner for the Classic Kettle.

ENVIRONMENTALLY RESPONSIBLE:

Fully repairable or replaceable parts for a toaster that will last a lifetime.

Handmade IN THE UK

We are proud that every Classic Toaster is hand-made in the UK by our skilled craftsmen. Quality and attention to detail are paramount, which is why each toaster features the assembler's name on the base plate.

PATENTED PROHEAT®

ELEMENTS

PROTECTIVE COVERING:

The durable protective film keeps the filaments clean and makes our ProHeat® elements virtually unbreakable.

EVEN TOASTING:

No element has as many 'winds per square cm' as Dualit's ProHeat® element – this makes for the most evenly toasted bread.

REPLACEABLE ELEMENTS:

ProHeat® elements are replaceable to ensure minimal disruption to service.

New Neutrals

Dualit has been working with leading global colour and trend forecaster, Anna Starmer to create a new range of colours for the iconic Classic Toaster. Four colours, delicate tints, perfectly matched. Colours are curated from collections. Found objects and treasured items are preserved, to inspire new shades and surfaces. Walking in Sussex, trailing through antique markets, searching out new and old. From a pebble found on the beach, to a hand crafted Japanese paper bowl, we discover inspiration all around us.

Porcelain, Feather, Shadow, Powder; four gentle colours, a new neutral palette.

Image credit to Anna Starmer

Porcelain

Inspired by morning light. This is a fragile white, with a chalky matte finish, soft, alluring and timeless.

Image credit to Anna Starmer

Shadow

Surround yourself with comforting layers of greys
shadow upon shadow.

Image credit to Anna Starmer

Feather

Palest feather grey is enduring, beautiful like a perfectly still grey day, clouded yet infinite.

Image credit to Anna Starmer

Powder

This is the most delicate shade of pink, a tint, a blush, a hint of colour.

Add a splash of colour to your kitchen! Our palette of Classic Toaster colours range from bold accents and sophisticated metallics to calm pastels. Whatever your preference, we've got the hue for you!

MASTER YOUR TOASTING
SKILLS WITH DUALIT'S
**SANDWICH
CAGE** (optional extra)

With a sandwich cage your toaster becomes so much more! Not only can you make crunchy, melt-in-the-middle toasties without losing the filling, but it is ideal for toasting smaller items such as crumpets, muffins, waffles, teacakes and even homemade garlic bread.

**CHICKEN, MOZZARELLA
AND BASIL TOASTIE**

Makes 2 toasties

- 4 slices sourdough
- Sea salt and pepper
- Olive oil
- 1 cooked chicken breast
- 6 basil leaves
- 1 mozzarella ball
- Smoked paprika (optional)

1. Drizzle the sourdough with oil on both sides and season with salt and pepper
2. Place one slice of sourdough, oiled side down, on the sandwich cage and top with the thinly sliced chicken
3. Place 2-3 leaves of basil and slices of mozzarella on top; sprinkle with smoked paprika
4. Cover with another slice of sourdough, close the sandwich cage and place in the toaster
5. Toast for two minutes or until golden brown. Leave sandwich in the toaster for a further minute after toasting to allow the mozzarella to melt fully

Classic

KETTLE

The Classic Kettle combines the latest patented innovations with quality and attention to detail to add a stylish statement to any kitchen.

STYLE & SUBSTANCE

NON-DRIP SPOUT

Precision engineered spout prevents water dripping onto your kettle or work surface

DUALIT.COM/STUDIO

STUDIO®

.... BY DUALIT

1.5L KETTLE

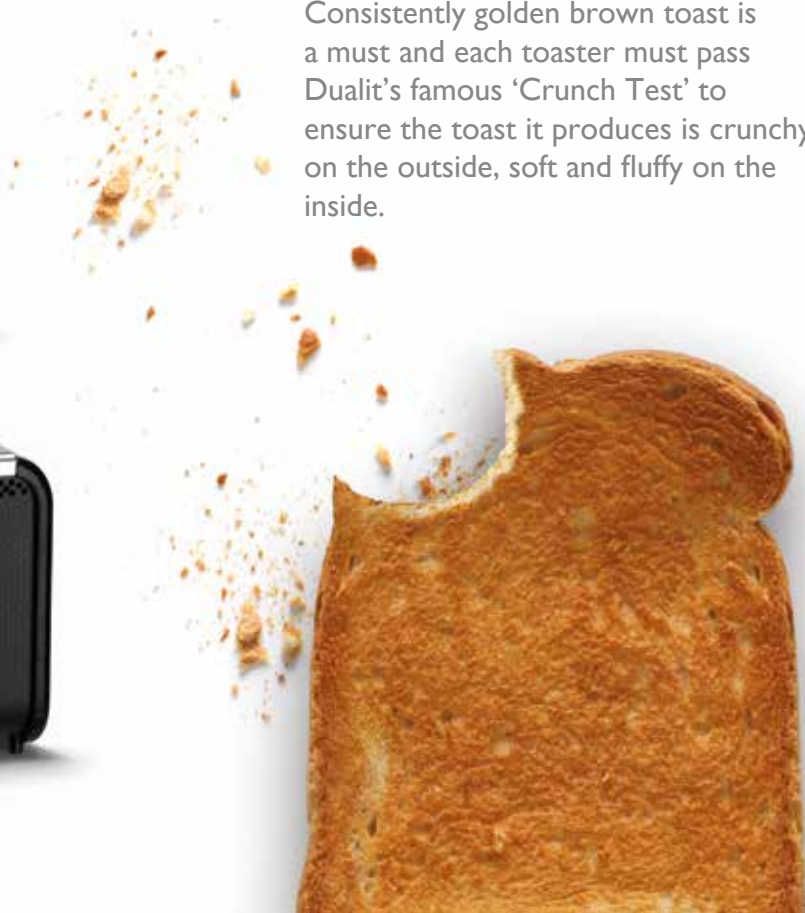

Featuring revolutionary, patented Sure Pour™ together with a modern style that observes the latest interior design trends. Dual measuring windows in both cups and litres help you to save energy by boiling only the water you need. Dualit are experts at making kettles and the Studio by Dualit® Kettle is no exception..

watch the video at
DUALIT.COM/STUDIO

CRUNCH TEST APPROVED:

Consistently golden brown toast is a must and each toaster must pass Dualit's famous 'Crunch Test' to ensure the toast it produces is crunchy on the outside, soft and fluffy on the inside.

"In fact it has so many plus points that we've made it a Best Buy."
Which?

PATENTED SURE POUR:

This revolutionary feature combines an easy-grip handle, precision engineered non-drip spout and lightweight polymer construction with low pouring angle ideal for anyone looking for a kettle that is easy to handle.

NEUTRAL WRIST ACTION:

A reduced pouring angle of just 60° compared to a market maximum of 92°.

THE EXCEPTIONAL TASTE *of quality*

TEA & COFFEE COLLECTION

DUALIT & NESPRESSO® COMPATIBLE*

Our coffees and teas deliver exceptional taste to suit anyone and for every occasion. Our patented capsules and ESE pods provide the perfect solution for mess free convenience, delivering great taste in seconds. Dualit's capsules and pods are sealed with premium coffee beans and tea leaves from around the world.

THE ART OF *exceptional capsules*

DUALIT & NESPRESSO® COMPATIBLE*

PRIVATE LABEL

Dualit manufactures capsules in the UK for private label requirements for many well-known retailers. Offering own label manufacturing capabilities allows Dualit to be able to advise retailers of any associated risks and protect against legal action. Manufacturing capsules onsite means Dualit engineers and production can react rapidly to Nespresso® technical advances, increased demand and product development, that can only run and be tested on production machinery.

Watch our 'how it's made' video at:
[DUALIT.COM/CAPSULES](https://dualit.com/capsules)

EXPERTISE *from bean to pod*

BEANS

Dualit work with coffee Q Graders and taste panellists to select premium Arabica and Robusta coffee beans from the world's finest growing regions to deliver a luxurious tasting coffee. We source Fairtrade certified coffee from 100% Fairtrade producers to ensure ethical trading and sustainability.

ROASTING

Our master roasters unlock the aromas and flavours of our green beans by roasting them to perfection. Using state of the art roasters, we can ensure the beans are profiled flawlessly. The beans at this point take on that beautiful fragrance of fresh roasted coffee, that we all know and love.

GRINDING

The grind size is very important to ensure the capsule delivers that indulgent espresso. Our team of engineers test grind sizes to ensure consistency of flow to guarantee the grounds are the perfect size enabling the espresso to flow seamlessly at the touch of a button.

ENCAPSULATING

Dualit has over 5 years experience of encapsulating coffee, investing millions in machinery for our capsule production facility in West Sussex, UK. Encapsulating is a complex combination of engineering, art and science. Coffee capsules offer a fast and convenient way of making coffee; a pre-portioned, pre-tamped serving of ground coffee enclosed in a capsule that can be recycled after use. Using the freshest coffee that has been roasted, ground and encapsulated in quick succession, our pods keep the coffee totally protected from damage and oxidation, allowing Dualit to achieve espresso perfection.

THE ESPRESSO

The proof is in the pudding or in our case coffee! Try our velvety, crema topped, luxurious espresso and get lost in our coffee journey.

INNOVATION

Dualit's Nespresso® compatible* range of award winning Fairtrade coffee capsules and tea pods are recyclable! We understand the importance of recyclability and sustainability and we were one of the first companies to launch compostable capsules; our environmentally friendly Biopod® is a great addition to our range.

DUALIT.COM/TEA

TEAVOLUTION™:

Patented technology releases the finest flavour from the tea leaves and reduces brew time by up to 90%. Experience tea like you've never tasted it before.

CHOICE & CONVENIENCE:

Enjoy a range of premium tea blends and infusions in the mess-free convenience of a capsule.

PERFECTION IN A CUP:

Patented microfiltration gives an exceptional taste and unsurpassed clarity. Each capsule has a peel off lid to protect the filter.

ENGLISH BREAKFAST:

Exceptionally luxurious & smooth tea, brewed in seconds

Hand plucked unique blend from the highlands alongside the East African Rift Valley. Awaken your senses with its bright golden colour, exceptionally luxurious and smooth taste.

EARL GREY:

Quintessentially refreshing & elegant tea, brewed in seconds

The quintessential British premium blend of black tea; a delicately flavoured, distinctive yet aromatic flavour with zesty bergamot. This is a refreshing and elegant tea that can be drunk with or without milk. The perfect blend for an indulgent afternoon tea.

GREEN TEA:

Naturally pure & delicious tea, brewed in seconds

Experience the remarkable freshness of our Green Tea. This light, smooth, clean-tasting tea is rich in antioxidants. High quality, hand plucked and non-fermented leaves give a superior flavour.

BLACKCURRANT INFUSION:

Irresistible & velvety fruit explosion, brewed in seconds

An irresistible, velvety infusion bursting with lively fruit flavours, which is naturally caffeine free. Gentle pressure extracts a mouth-watering explosion of sumptuous blackcurrants, hibiscus, rosehips and blackberry leaves, with a hint of liquorice.

PEPPERMINT INFUSION:

Refreshingly soothing & uplifting, brewed in seconds

A classic digestif known for its revitalising benefits and naturally caffeine free. Made from 100% peppermint leaves, this is both soothing and uplifting with unparalleled freshness.

BEVERAGE MACHINE COLLECTION

Our range of coffee machines, coffee makers and accessories offers something for true coffee aficionados as well as coffee lovers that simply want a cup of great tasting coffee, quickly and easily.

We are so proud that our Cafe Cino and Espresso-Auto 4 in 1 have all won industry and consumer awards in the last year, proving our technical innovations and user-friendly designs have been a hit with both retailers and customers!

espress-autoTM

COFFEE & TEA MACHINE

TEAVOLUTIONTM:

Dedicated tea button that boosts the water to optimum brewing temperature for those who like it extra hot.

EXTRACTS AT THE TOUCH OF A BUTTON:

Intuitive beverage machine with automatic dose control. Your touch button barista also has a programmable dosing memory that recalls the size of your favourite cup.

TEMPERATURE ADJUSTMENT:

Manual temperature reduction option ideal for Dualit's Fine Green Tea or Infusions range.

watch the video at
DUALIT.COM/ESPRESS-AUTO

- Unique multi brew system (see page 57)
- Compatible with Nespresso[®] capsules when using the capsule piercer included
- Automatic dose control with programmable memory
- Temperature adjustment
- Patented Pure Pour[®]
- Thermobloc heating system
- 19 BAR pump
- Extra large 1.5L removable water reservoir
- Automatic temperature adjustment when switching from steam to extraction
- Extra height for larger cups
- Easy to clean milk frothing nozzle
- Cup warming plate
- Removable non-slip drip tray
- Stainless steel Frothing Jug included
- TeavolutionTM
- Auto off after 30 minutes

UNIQUE FEATURES FOR ESPRESS-AUTO AND COFFEE MACHINE

**PATENTED
PURE POUR®:**
With Dualit's patented Pure Pour® technology, coffee connoisseurs become instant baristas. Watch the smooth streams of coffee create the perfect crema.

THERMOBLOC HEATING SYSTEM:

Works like a combi-boiler to provide hot water and steam on demand, for continuous cappuccinos. The result? Less waiting time, more drinking time.

Café Cino

CAPSULE MACHINE

INTELLIGENT CHOICE:

Compatible with Dualit and Nespresso® capsules, the Café Cino offers the choice of making coffee or tea. Purchase Dualit capsules online, on the high street or in supermarkets for ultimate convenience.

PRECISION EXTRACTION:

Precise Dosing control - extracts the perfect measure of espresso, lungo, Americano or tea. Programmable Memory - select more or less in your cup with programmable dosing memory.

TEAVOLUTION™:

Dedicated tea button that boosts the water to optimum brewing temperature for those who like it extra hot.

YOUR OWN KITCHEN CAFÉ:

The built-in milk frother creates dense, velvety foam, heated by steam for a professional result. Make cappuccinos, lattes or hot milkshakes in no time, with an option to further boost the temperature of the milk. Cool down with the Café Cino's cold froth function for silky smooth shakes.

watch the video at
DUALIT.COM/CAFE-CINO

- Compatible with Dualit NX® Coffee Capsules, Dualit Fine Tea Capsules and Nespresso® capsules
- Built in milk frother with jug (air volume 500ml)
- Precise, automatic dose control
- Programmable dosing memory
- Thermobloc heating system
- Dedicated espresso, lungo, cappuccino and latte settings

- Teavolution™; dedicated tea function with temperature boost
- Cold, frothed milk option for milkshakes
- Temperature boost option for frothed milk
- 19 BAR pump
- Descale warning light and descaling program
- 800ml removable water tank & lid
- Removable capsule basket & drip tray
- Auto switch-off after ten minutes

Café Plus

CAPSULE MACHINE

INTELLIGENT CHOICE:

Compatible with Dualit and Nespresso®* capsules, the Café Plus offers the choice of making coffee or tea. Purchase capsules online, on the high street or in supermarkets for ultimate convenience.

PRECISION EXTRACTION:

Precise Dosing control - extracts the perfect measure of espresso, lungo, Americano or tea. Programmable Memory - select more or less in your cup with programmable dosing memory.

TEAVOLUTION™:

Dedicated tea button that boosts the water to optimum brewing temperature for those who like it extra hot.

Coffee

PERCOLATOR

- Automatic off after 45 minutes
- On and off switch function on base
- Makes up to 10 cups
- Heat up time: 10 mins
- Capacity: 1.5 litres
- Neon light turns orange while brewing and green when ready to drink
- Concealed heating element for easy cleaning
- Transparent lid allows you to monitor the strength of the coffee
- Compatible with ground coffee and tea bags
- Oversized non-drip spout
- Heatproof handle and large, heatproof ball knob with finger-guard

Dualit's cordless Percolator is the perfect coffee machine for large parties. It provides up to 10 cups of coffee in just 10 minutes, and then keeps the rest hot and ready to drink for another 35 minutes. With on/off button functionality and automatic off after 45 minutes it's a kitchen must have and stylish enough to take straight to the table.

Cafetière

8 CUP CAPACITY

PATENTED DOUBLE FILTER TECHNOLOGY:

A cleaner cup of coffee or tea from start to finish.

Approx 22% increased filtration.**

DOUBLE WALL INSULATION:

Keeps your coffee or tea 18% hotter**

Cool to touch body, more than 60% cooler**

**vs a conventional glass cafetière

MILK Frother

TRIPLE FUNCTION

ONE-TOUCH:

Patented dual speed motor quietly makes heated milk, frothed hot milk, or cold froth, all at a press of a button.

INGENIOUS DESIGN:

The patented removable whisk uses magnetism to give a fully sealed drive.

EASY TO USE:

Stylish cordless jug switches off automatically when it reaches the perfect temperature.

- Double filter technology
- Double wall insulation
- 8 cup capacity (880ml)
- Suitable for coffee or tea
- Shatterproof high-quality stainless steel
- Dishwasher safe
- BPA Free

watch the video at
DUALIT.COM/CAFETIERE

- One-Touch Triple Function
- Patented dual speed motor
- Patented removable whisk
- Generous capacity: 500ml*
- Non-stick interior coating
- Automatic switch off
- Cordless convenience
- Non-slip rubber feet

* Maximum volume after heating cycle

CONICAL *Burr*

COFFEE GRINDER

Dualit's Burr Grinder produces consistent ground coffee every time, preserving the maximum aroma of the bean through faultless temperature control.

PORTION CONTROL:

Convenient portion selector delivers only what you require each time, ensuring your beans are always freshly ground.

10 GRIND SETTINGS:

Covers all your coffee equipment needs, whether coarse (for percolators and cafetières), medium (for filter machines) or fine (for espresso makers).

*Cino*TM

MILK STEAMER

- Freestanding portable and compact unit
- Mains plugged unit
- Thermobloc element for continuous steam
- Descale function with advance warning light
- 1 Litre tank capacity
- 1450W
- Powerful pump for plentiful steam
- Perfect for making cappuccinos, babyccinos, flat whites and lattes
- Frees up the coffee machine for more use
- Blue light indicator when ready
- Low water indicator flashes red
- Includes milk frothing jug
- Includes thermometer
- Includes three water filters

CONICAL BURR GRINDER:

At 450rpm, our Conical Burr Coffee Grinder spins slower than other grinders. This minimises heat, preserving the natural oils and aromas released during the grind process. The powerful burrs crush the beans evenly, instead of cutting them, resulting in better flavours and a uniform grind. Removable outer burr for easy cleaning.

BARISTA KIT

Milk Frothing Jug, Chocolate Shaker and Thermometer - everything you need to make your perfect coffee a work of art.

MILK FROTHING JUG

Create coffee shop quality cappuccinos and velvety smooth lattes.

ESSENTIALS

FOOD PREP COLLECTION

Blend, chop, mix, knead and juice- we've got it covered! Eat well every day with our range of processors, mixers, blenders and juicers that will make time spent in the kitchen much easier, leaving you more time to enjoy your culinary creations.

Release THE NUTRITION

BLENDER

How to get your 5 a day

It is recommended we eat between five and seven portions of fruit and vegetables a day; how many do you eat? It's much easier to drink them rather than eat them, so blend your own nutritious smoothies and soups and getting your '5 a day' will be so much easier.

ICE CRUSH:

From ice cubes to snow drifts in just 10 seconds

AUTO PULSE:

A soft-start pulsing action that ensures the mixture has maximum contact with the blades for the smoothest results

vortecS®

POWERFUL NUTRITION EXTRACTION:

The powerful 1000W motor and VortecS multi-dimensional mix action makes light work of the toughest fruit and vegetables; the asymmetrical fins and six pronged blade blast the ingredients, breaking down the skin, seeds, nuts and pulp in seconds to release the nutrition locked inside, creating the smoothest liquid packed with nutrients.

watch the video at
DUALIT.COM/BLENDER

WHAT IT MAKES:

Healthy smoothies

Creamy milkshakes

Sauces

Nutritious baby food

Soups

Batters

Dressings

Dips

Frozen desserts

Mousses

Cocktails

Crushed ice

Juicer

DUAL-MAX™

DUAL SPEED:

Adapt the juicing speed depending on whether you are juicing hard or soft fruits.

EASY CLEAN:

Each bowl and attachment is dishwasher safe. Less time cleaning, more time juicing!

INCREASED JUICE YIELD:

SINGLE
LAYER SIEVE

Dualit.
DOUBLE
LAYER SIEVE

DOUBLE SIEVE TECHNOLOGY:

Two-stage extraction process for maximum juice yield.

STAGE 1:
Your chosen fruit is juiced

STAGE 2:
Any pulp remaining from the fruit after stage 1 is also juiced

Juice plan

Our three day juice and smoothie plan includes a selection of recipes designed to help you on your way to good health and wellbeing. It is easy to follow and uses a variety of fruit and vegetables to maximise the nutrition in your diet. Give it a go and kick start your healthy living plan.

5 a-day

HAND BLENDER

Soups, smoothies and beyond

watch the video at
DUALIT.COM/HAND-BLENDER

vortec®

NUTRI-VORTECS:

A six-pronged blade, internal fins and 700W of power force ingredients into the chopping zone to create the smoothest mixtures. Fruit and vegetables are given a power blast that releases the nutrition locked inside the pulp, skin and seeds.

If years of use eventually begin to take their toll, the Hand Blender is repairable.

BLENDING STICK & JUG

For heavy mixtures and solids to create the smoothest soups, smoothies and baby food.

CHOPPING BOWL

Chops everyday ingredients in seconds and creates dressings, dips and sauces.

BALLOON WHISK

Mixes cream, egg whites and cake batter to create the lightest sponges, meringues, soufflés and mousses.

Cooking at home

FOOD PROCESSOR

XL1500

UNIQUE SEALED DRIVE:

The sealed drive allows you to keep food in the bowl throughout the recipe.

AUTO PULSE:

This clever and versatile feature retains the integrity of the food being processed without pulverising ingredients.

1500W MOTOR:

A powerful commercial grade induction motor tough enough to cope with the most demanding kitchen tasks.

watch the video at
DUALIT.COM/FOOD-PROCESSOR

**LARGE
BOWL & BLADE**
Maximum capacity for processing
liquids, mixing dough & beating eggs.

**MEDIUM
BOWL & BLADE**
Use for chopping, slicing and
grating smaller quantities.

**SMALL
BOWL & BLADE**
Sit inside the medium bowl and
use for dips, sauces, baby food
and herbs.

**GRATING &
SHAVING DISC**
Ideal for grating hard cheeses
and shaving chocolate.

SHREDDING DISC
Select fine or coarse side for
shredding in two sizes:
1mm & 3mm holes.

JULIENNE DISC
Quick preparation for
stir-frys and salads.

**ADJUSTABLE
SLICING DISC**
Adjustable function for slicing
various thickness: 0.5mm - 7.5mm.

E-DISC
Use for emulsifying liquids or
whisking egg whites.

DOUGH BLADE
Perfect for making bread
dough and pastries.

Bake off™

HAND MIXER

Be star baker everyday!

watch the video at
DUALIT.COM/HAND-MIXER

UNIQUE CORD TIDY:

Small but perfectly formed with a retractable cord and cleverly designed integral plug storage, creating less clutter and needing minimal storage space..

POWERFUL:

The 400W motor includes multiple speed settings - ideal for any task from whisking eggs to mixing dough, taking the chore out of baking.

If years of use eventually begin to take their toll, the Hand Mixer is repairable.

FLAT BEATERS

Perfect for mixing up cookie doughs and cake batters, liquids and creaming butter and sugar.

BALLOON WHISK

Use this for light and fluffy mixtures; whipping cream or whisking egg whites and meringues.

DOUGH HOOKS

Mixes dough for bread and pastry with minimal effort at slow speed for the best results.

For the full recipes visit:
DUALIT.COM/ARTICLES-AND-RECIPES

Bake off™

Preparing your own meals is so much easier with the right tools. Know exactly what is going into each bake, whether you're making a wholesome family dinner or a naughty sweet treat and save valuable time with your extra pair of "helping hands".

FOR THE *Commercial* KITCHEN

CATERING COLLECTION

Dualit understands the needs of professional chefs, restaurants, cafés, pubs, bars, hotels and B&Bs, and has developed innovative and easy to use products that can withstand the demands of a commercial environment.

From grills to soup kettles to conveyor, contact and traditional toasters, your kitchen will run efficiently with Dualit.

Classic toasters

- Hand built in the UK. Each one is hand-assembled and features the assembler's individual mark on the base plate
- Fully repairable or replaceable parts
- Patented ProHeat® elements
- Extra wide 28mm slots
- Adjustable rear foot
- Energy-efficient slot-selector control allows you to only toast what you need

- Mechanical timer allows you to control your browning preferences
- Manually operated ejector lever lets you check bread whilst toasting
- Defrost setting gently warms frozen bread ready for toasting

PATENTED PROHEAT®

Dualit's patented ProHeat® elements are the key feature of the Classic Toasters. Their unique, armour-plated design protects the filaments from damage, whilst the extra 'winds per square cm' ensure that the bread is toasted more evenly.

PROTECTIVE COVERING:

The durable protective film keeps the filaments clean and makes our ProHeat® elements virtually unbreakable.

EVEN TOASTING:

No element has as many 'winds per square cm' as Dualit's ProHeat® element – which makes for the most evenly toasted bread.

REPLACEABLE ELEMENTS:

ProHeat® elements are replaceable to ensure minimal disruption to service.

Catering

POP-UP TOASTER

PROHEAT®:

Unique patented ProHeat® elements have a protective armour plated layer covering the filament making them virtually unbreakable.

POP-UP:

It couldn't be simpler: drop in the bread and lower the lever. The toast will automatically pop-up, browned to perfection, when ready.

REPLACEABLE PARTS:

Designed for continual, day in, day out use. However, if wear and tear eventually take their toll, virtually every part can be replaced.

Conveyor

TOASTER

FEED THE CROWDS:

Available in double slice width, this hard working toaster can produce around 360 slices of toast per hour. Radiant Quartz Red Heat elements heat up in 5-10 minutes.

ENERGY EFFICIENT:

Thermostatically controlled elements maintain the toasting temperature by cycling on and off when the toaster is idle, saving up to 20% on energy consumption. A 'stand by' mode saves 75% energy.

INDIVIDUAL CONTROLS

Individual element selectors enable toasting bread, buns and bagels on one side only. Other features include variable browning control, a safe load-up area and heated holding area.

DCT2T

Contact grills

PANINI & DOUBLE

Contact Grills play an essential role in the kitchen, useful throughout the day. The Dualit range includes the panini and a double grill for versatility. All have flat base plates and ribbed top plates for faster cooking time... because we know time is money.

Double

Panini

Griddle

The Griddle boasts a stainless steel griddle plate specifically designed to ensure even heat across the entire cooking area. Its versatility means you can cook virtually anything from eggs and bacon to most fish, steaks and even onions and tomatoes.

Contact toaster

60 SANDWICHES PER HOUR

Makes delicious, sealed toasted sandwich triangles; their deep non-stick moulding and robust seal means that fillings can be extremely generous. The two hotplates can be operated individually to conserve energy.

MADE IN UK

Waffle iron

60 WAFFLES PER HOUR

Makes two rings of perfectly dimpled waffles, divided into four portions. Made from satin finish, top grade stainless steel, each plate has two layers of non-stick coating. The two hotplates can be operated individually to conserve energy.

MADE IN UK

2 IN 1

Toastie and Waffle maker

Enjoy the best of both worlds and save valuable kitchen counter space! Makes toasted sandwiches and waffles at the same time or separately as each plate has its own controls, along with non-stick hot plates for easy cleaning.

MADE IN UK

Soup kettle

11L, 10L, 6L

Our range of soup kettles are built for hard work, with solid cast aluminium outer bodies and stainless steel liners. All are fitted with long life heating elements and are ideal for use in the kitchen or front of house. The compact 6L wet-heat is perfect for foods that need moisture to heat, while the 10L dry heat holds beans, curries, stews and chillis at just the right temperature. The 11L wet and dry is a flexible kitchen workhorse.
